MELBOURNE

## THE UNIVERSITY OF MELBOURNE ARCHIVES

<b>NAME OF COLLECTION</b>	<b>CRA LTD PHOTOGRAPHS</b>
<b>REFERENCE NO</b>	1984.0105
<b>CATEGORY</b>	Business, Organisations
<b>ACTIVITY</b>	Mining Companies
<b>DATE RANGE</b>	c.1880-1984
<b>SIZE OF COLLECTION</b>	69 boxes
<b>HISTORICAL NOTE</b>	<p>Conzinc Riotinto of Australia Limited was formed in July 1962 through the merger of the Australian interests of Consolidated Zinc Corporation Ltd and Rio Tinto Limited. The Zinc Corporation was the forerunner of Consolidated Zinc Corporation itself the Australian based operation which merged with Rio Tinto Ltd to form CRA Ltd in Australia and RTZ Ltd in London. Simultaneously, the Rio Tinto-Zinc Corporation was formed through the merger of the British parent companies.</p>
<b>DATE OF TRANSFER</b>	1984
<b>ACCESS CONDITIONS</b>	Restricted
<b>DESCRIPTION</b>	<p>CRA Photographs, listed chronologically within operation. CRA Ltd Group Administrative Services Division's Corporate Relations Services section amassed them during various stages of the group's operations, many in the process of producing publications.</p> <p>The photographs are divided into major subject groups including: CRA Group Personnel/Staff; Exhibitions; 95 Collins Street; Gazette photographs; Mining; Smelting and Refining; Oil Exploration and Research; Other CRA Explorations and Research; Overviews of operations; Metallurgy and Metals; Non-Cra operations. Within these major headings, each is divided into sub-groups which might be individual companies, subjects, geographical areas or persons.</p>
<b>NOTE ON LISTING</b>	See attached notes on how to use the collection
<b>LISTED BY DATE</b>	Maryanne McCubbin, CRA Archivist 11 November 1986

## PART I

### DESCRIPTION OF CRA PHOTOGRAPH COLLECTION LIST, AND HINTS ON HOW TO USE IT

#### 1. PHYSICAL DESCRIPTION OF PHOTOGRAPH COLLECTION

The CRA Photograph Collection consists of 68 archive boxes, each containing an average of 150 items (photographic prints, transparencies, slides, rough proofs, and negatives)

#### 2. DESCRIPTION OF LIST

The itemised list consists of 532 typed pages, copies of which are deposited with Ian Hore-Lacy and Joan Richardson at CRA, and with Melbourne University Archives.

#### 3. SUB-DIVISIONS WITHIN PHOTOGRAPH COLLECTION

##### 3.1 MAJOR SUBJECT GROUPS

The Photograph Collection is divided into major subject groups, these being:

1. CRA Group Personnel/Staff
2. Exhibitions
3. 95 Collins Street
4. Gazette Photographs - Non-personnel
5. Mining
6. Smelting and Refining
7. Oil Exploration and Research (mainly Interstate Oil Limited and and Frome-Broken Hill Co. Pty. Ltd.)
8. Other CRA Exploration and Research
9. Miscellaneous Operations
10. CRA - Overviews of Operations, Products, and Logos
11. Metallurgy and Metals
12. Non-CRA Operations
13. Miscellaneous and Unidentified

##### 3.2 SUB-GROUPS

Within these major subject areas, the collection is further broken into categories, which for clarity I have called sub-groups. These are mainly individual companies and in some cases, subjects, geographical areas, or persons. Thus one sub-group falling under Mining (1/5) = Mary Kathleen Uranium (1/5/8), and one sub-group falling under CRA Oil Exploration and Research (1/7) = Iran (1/7/6).

##### 3.3 MINOR GROUPS

Within some of the larger sub-groups, namely, Hamersley Iron, MKU, TEP, Zinc Corporation and NBHC, Comalco -

smelting and refining, Sulphide Corporation, Comalco Manufacturing, and Rio Tinto Zinc (Parent Company), I have further divided them into minor groups. Refer to pp. 6-9 of index to the list. Division at this level is designed to give the user an idea of the main content of the overall sub-category and its more specific contents. Thus the user will note that the main areas covered in the sub-group TEP are: historical, general, last drum (the), open cuts and some of the treatment plant, town and community, transport, treatment plant, negatives, transparencies, and rough proofs, and slides. Nevertheless, to gain full benefit from the Photograph Collection, it is important that the user note that the categories at the minor group level are not mutually exclusive. Thus items in the open cut section of TEP may also be contained in the town and community section, or items depicting MKU sporting facilities not contained in the MKU sporting section may be contained in the community section. In other words, it is worth having a fairly thorough glimpse through all sections of the itemised list which may cover the area the user is interested in.

#### 4. ARCHIVAL NUMBERING SYSTEM

An archival numbering system has been used to denote the different levels of division as well as giving each item, where applicable, an individual number. Refer to the index to the listing for an explanation of what the numbers stand for.

Thus each item begins with 1/..., denoting CRA Photograph Collection. The 1/ will be followed by a number denoting the major subject group. Thus 1/7 denotes CRA Oil Exploration and Research. The third number denotes the sub-group; thus 1/8/3 = Other Oil Exploration and Research: Capella Coal Prospect. The fourth number, where it is the last number, will denote the individual item, and where the fourth number is the second-last number, it will denote the minor group. The fifth number, where it exists, will denote the individual item.

Thus 1/5/6/14/35 = CRA Photograph Collection, Mining Section, Hamersley Iron Pty. Ltd., Railway Section, "Interior of railway workshop."

#### 5. PHYSICAL STORAGE OF COLLECTION AND NOTING OF THIS ON THE LIST

Each sub-group will consist of one or several envelopes containing a number of pictorial items. Each envelope usually bears a brief description noting the main theme of its contents. Thus one envelope might be "Zinc Corporation, mining".

#### 6. COMMON DESCRIPTORS OF ITEMS WITHIN ENVELOPES

Additionally, many envelopes carry items having common descriptors. That is, all the items within one envelope might be black and white, or they may all be dated 1983, or they may all have been taken by Val Foreman. The brief description on each envelope, along with the common descriptors of the contents of that particular envelope (these are underlined) are noted on the listing as they occur in the physical arrangement. Thus the

listing will be as follows:

Box No.  
44

\* 1/5/14/9: N.B.H.C.: Annual General Meeting: April 1973:  
B/W: 15.5 x 20.5 cms.: Val Foreman

1/5/14/9/1 F.F. Espie talking at N.B.H.C. Annual General Meeting.

1/5/14/9/2 Sir Henry Bland and Sir Maurice Mawby talking at N.B.H.C. A.G.M.

**7. INTRODUCTION OF NEW ENVELOPE OF ITEMS, OR NEW SUBDIVISION  
ASTERISKED ON LIST**

For ease of reading, each new envelope, when noted on the list, is asterisked and underlined, as is the noting of a new major subject group, sub-group, or minor group. (See above example).

**8. THE ORDER OF LISTING WITHIN EACH SUB-GROUP**

**8.1 ACCORDING TO THE TYPE OF ITEM**

Within each sub-group, the photographs and rough proofs will normally be listed first, followed by the transparencies and negatives, and then the slides. Nevertheless, there are exceptions to these rules, and in smaller groups these rules may not be applicable. That is, some collections may only consist of say, slides, or a collection may be too small to warrant listing in such an order.

**8.2 LISTING OF SLIDE BOX AND ALBUM PHOTOGRAPHS**

Some of the sub-groups have in addition, or consist solely of, slide-box and/or album items. The slide boxes and albums are stored at the end of the CRA Photograph Collection, in compactus 8/1/5. Nevertheless, the contents of the slide boxes and album sheets are listed under their appropriate sub-groups. Thus the list format might run:

BOX NO.  
18

1/5/2/481 Colour slide. Aerial of Panguna pit and mine site. c.1972.

1/5/2/482 Colour slide. Panguna concentrator area. 1972.

S/B 2 1/5/2/483 Colour. Panguna forest. 1966. Val Foreman.

BOX NO.  
66

1/5/2/484 Colour. Bulldozing at Panguna. 1966. Val Foreman.

The album photographs are listed under their appropriate

sub-group and minor group usually after the "standard" photos have been listed. Likewise, the slide box slides are listed after the standard "sheets" of slides in the former's appropriate subject heading.

#### 9. ITEM DESCRIPTION

Each item bears the following descriptors (whether the descriptors are noted beside the item on the list or are implied in any underlined descriptors in the preceding envelope heading):

- . Type of pictorial item. These include: Photographic print (NOTE: Each item is a photographic print unless otherwise specified), transparency (trans. in abbreviated form), Rough proof (r.p.), Negative (neg.), and slide.
- . a brief description of the item.
- . a date, or a note that the item is not dated (n.d. or Nd.)
- . colour or black and white (B/W) is noted.
- . the approximate size in centimetres (cms.) in brackets (height preceding width). NOTE: all slides are 5 x 5 cms.
- . the photographer (If it is noted on the item or can be guessed at; otherwise nothing will be noted here).
- . if there are two or more copies of an item, this will be noted in brackets at the end of a description.

Thus, a complete description may go:

1/5/3/8. Concentrator building. 1963. B/W. (20 x 25 cms.)  
Arthur Cratchley and Associates. (Two copies).

#### 10. BOX AND SHELF LOCATION OF ITEMS

Beside each item a box number is noted.

After every fourteen archive boxes of items listed, a new shelf location is started.

#### 11. RETRIEVAL

Through experience I have found retrieval to be a simple matter, as all items are physically numbered (where possible) as is their plastic jacket in most cases. The list indicates which box and envelope the item will be found in.

#### 12. IMPORTANT POINTS TO NOTE ABOUT LIST AND COLLECTION:

- . Each item is a photographic print unless otherwise specified
- . Each item is singular unless otherwise specified
- . All slides are 5 x 5 cms
- . Descriptors not noted next to the item will most likely be

noted in the envelope heading (asterisked and underlined) immediately preceding the item

- Minor groups and envelope descriptors are indicative rather than final. To gain maximum benefit from the collection, one should peruse all possibilities on the itemised index relevant to their area of interest.

### 13. ABBREVIATIONS

B/W = Black and white photographic print  
c. = circa  
n.d./ =  
Nd. = no date  
neg. = negative  
trans = transparency  
r.p. = rough proof  
S/B = slide box

PART II

INDEX TO CRA PHOTOGRAPH COLLECTION LIST

- 1/1      CRA Group Personnel/Staff. Boxes 1-11.
- 1/1/1      Personnel  
1/1/2      Annual general meetings  
1/1/3      Conferences and special visits  
1/1/4      Miscellaneous group photographs  
1/1/5      Unidentified personnel
- 1/2      Exhibitions. 11-12.
- 1/3      95 Collins Street. 12
- 1/4      Gazette Photographs - non-personnel. 13-14.
- 1/5      Mining.
- 1/5/1      Blair Athol Coal. (Pictures date from 1966-77). Box 15.  
1/5/2      Bougainville Copper. (1964-77) 16, 17, and 18. S/B 2, 4 and 5.  
1/5/3      Cobar Mines. (Early 1900s-1970) 18.  
1/5/4      Comalco: Weipa. (1961-74) 18.  
1/5/5      Conzinc Riotinto Malaysia. (1978-79) 18.  
1/5/6      Hamersley Iron. (1962-81) 19-28. S/B 2, 3, 4 and 5.  
Minor groups:
- 1/5/6/1      Book cover  
1/5/6/2      Brian Stevenson proofs  
1/5/6/3      Bucketwheel reclaimer  
1/5/6/4      Concentrator  
1/5/6/5      Construction (also see 1/5/6/4)  
1/5/6/6      Crushing and screening  
1/5/6/7      Dampier - aerials  
1/5/6/8      Dampier - community  
1/5/6/9      Dampier - sporting  
1/5/6/10      East Intercourse Island - shipping  
1/5/6/11      Exploration  
1/5/6/12      General and miscellaneous  
1/5/6/13      Hamersley - profiles  
1/5/6/14      Hamersley Iron - railway  
1/5/6/15      Karratha  
1/5/6/16      Mount Nameless  
1/5/6/17      Mount Tom Price - community  
1/5/6/18      Mount Tom Price - mine and mining  
1/5/6/19      Mount Tom Price - sporting  
1/5/6/20      Ore handling  
1/5/6/21      Ore transport  
1/5/6/22      Overseas - receiving iron ore  
1/5/6/23      Paraburdoo - community  
1/5/6/24      Paraburdoo - mining  
1/5/6/25      Pellet plant  
1/5/6/26      Pilbara area  
1/5/6/27      Service facilities

- 1/5/6/28 Shipping - general
- 1/5/6/29 Shipping - Parker Point
- 1/5/6/30 Transparencies and negatives
- 1/5/6/31 Slides
- 1/5/6/32 Miscellaneous transparencies and slides
- 1/5/7 Kembla Coal and Coke. 29.
- 1/5/8 Mary Kathleen Uranium (including Cossack and District) (1954-86) 29-36. Albums, and S/B 2.
- Minor groups:
  - 1/5/8/1 Aerials
  - 1/5/8/2 British Army Trials
  - 1/5/8/3 Care and Maintenance
  - 1/5/8/4 Copper Prospect at Blockade
  - 1/5/8/5 Cossack and District
  - 1/5/8/6 M.K.U. General. (Includes album photographs)
  - 1/5/8/7 Kuridala
  - 1/5/8/8 M.K.U. Mining (exploration and laboratories included) 1950s-1980s.
  - 1/5/8/9 Opening of mine by Sir Robert and Dame Pattie Menzies
  - 1/5/8/10 Press Photos
  - 1/5/8/11 Publications
  - 1/5/8/12 Tailings
  - 1/5/8/13 Town and Community
  - 1/5/8/14 Treatment Plant and Laboratory
  - 1/5/8/15 M.K.U. Proofs
  - 1/5/8/16 M.K.U. Negatives and Transparencies
  - 1/5/8/17 M.K.U. Slides and Transparencies
- 1/5/9 Redross and Wannaway. (1971-78) 37.
- 1/5/10 Tarong Coal. (1970-71) 37.
- 1/5/11 Territory Enterprises Limited - Rum Jungle. (1952-84) 37-40
- Minor groups:
  - 1/5/11/1 Historical
  - 1/5/11/2 General
  - 1/5/11/3 Last Drum, (The)
  - 1/5/11/4 Open cuts and some of Treatment Plant
  - 1/5/11/5 Town and Community
  - 1/5/11/6 Transport
  - 1/5/11/7 Treatment plant
  - 1/5/11/8 Negatives, transparencies and rough proofs
  - 1/5/11/9 Slides
- 1/5/12 TAZI: Stradbroke Island. (1955-63) 40.
- 1/5/13 Woodlawn Mines. (1976-79) 40.
- 1/5/14 Zinc Corporation and NBHC: Broken Hill. (1882-1983) 41-46. S/B 1 and 5.
- Minor groups:
  - 1/5/14/1 Historical
  - 1/5/14/2 Aerials
  - 1/5/14/3 Aerials and Regeneration
  - 1/5/14/4 Capital Equipment
  - 1/5/14/5 Community
  - 1/5/14/6 Directors' Visit 1970
  - 1/5/14/7 Exploration
  - 1/5/14/8 General and Miscellaneous
  - 1/5/14/9 N.B.H.C.-A.G.M. April 1973
  - 1/5/14/10 People
  - 1/5/14/11 Photos for a fortnightly Publication
  - 1/5/14/12 Regeneration

1/5/14/13 Research  
1/5/14/14 Safety  
1/5/14/15 Southern Power Corporation  
1/5/14/16<sup>7</sup> Underground  
1/5/14/17 Val Foreman Proofs  
1/5/14/18 Slides, transparencies, and negatives.  
1/5/15 **ENTERPRISE METALS, PEAK GOLD MINE**  
1/6 **Smelting and Refining**

1/6/1 Avonmouth: Commonwealth Smelting Laboratories. 47.  
1/6/2 BHAS, Port Pirie. 47-48. S/B 3 and 4.  
1/6/3 Budel: Netherlands. 48.  
1/6/4 Comalco. 48-49. S/B 4.  
Minor groups:  
1/6/4/1 Bell Bay, Tas. (1965-72)  
1/6/4/2 Bluff, N.Z. (1970)  
1/6/4/3 Queensland Alumina Limited, Gladstone (1965)  
1/6/4/4 Western Australia  
1/6/5 Sulphide Corporation, Cockle Creek. (1899-1975) 49-51.S/B 3.  
Minor groups:  
1/6/5/1 Historical  
1/6/5/2 Leisure  
1/6/5/3 Products and Transport of Products  
1/6/5/4 Research  
1/6/5/5 Shipping  
1/6/5/6 Works, general  
1/6/5/7 Slides, negatives, proofs, and transparencies.

1/7 Oil Exploration and Research (mainly Interstate Oil Limited and Frome-Broken Hill Co. Pty. Ltd.)

1/7/1 Central Australia. (1965) 51.  
1/7/2 Cloncurry. (1957) Album 44 and S/B 1.  
1/7/3 Flaxman's Hill. (1959) 51.  
1/7/4 Gippsland. (1955) 51.  
1/7/5 Hawkesdale. (1969) 51.  
1/7/6 Iran. (1960) 51.  
1/7/7 Miscellaneous. (1969-80) 51.  
1/7/8 Port Campbell (Frome-Broken Hill). (1959-60) 51.  
1/7/9 Port Fairy. (1966) 51.  
1/7/10 Sunnybank (Victoria). (1963) 52.  
1/7/11 Vietnam. (1974) 52.

1/8 Other CRA Exploration and Research

1/8/1 Ashton Joint Venture. (Subsequently Argyle Diamond Mines) (1978-80) 52.  
1/8/2 Bolivia. (1975) 52.  
1/8/3 Capella Coal Prospect. (1970) 52.  
1/8/4 CRAE - Adelaide River Plains. (1978) 52.  
1/8/5 CRA Research/Opinion Polls. 52-3.  
Minor groups:  
1/8/5/1 Advertising. (1978) 52.  
1/8/5/2 Public Opinion Survey. (1973) 53.  
1/8/5/3 Staff Attitudes Survey. (1975) 53.  
1/8/6 Rawling: CRA Applied Research and Process Development (1974?) S/B 5.  
1/8/7 Tasmania (Rio Tinto Australia P/L). (1957) S/B 1 and albums.

- 1/8/8 WORCRA (Research by Dr. Howard Worner) (1968-70) 53.  
1/8/9 CRA Research: Miscellaneous, (incl. Cockle Creek -  
1 trans.) (1960s-1974) 53.  
(Steel still to arrive).

1/9 Miscellaneous Operations

- 1/9/1 Associated Airlines. (1976) 53.  
1/9/2 Australian Fluorine Chemicals. (c. 1960s) 53.  
1/9/3 Comalco Manufacturing. 53.  
Minor Groups:  
1/9/3/1 Comalco Salt. (1968) 53. (Also see 1/9/4)  
1/9/3/2 High Gate Truck Construction. (c. 1970) 53.  
1/9/3/3 Yennora plant in Sydney. (1970) 53.  
1/9/4 Dampier Salt. (1970-78) 54. (Also see 1/9/3/1)  
1/9/5 Greenleaf Fertilizers. (1961-68) 54.  
1/9/6 Herons Creek Timber Mills (c.1960-75) 55 and 56. S/B 2 and 3  
1/9/7 Rio Tinto Zinc (Parent Company)  
Minor Groups:  
1/9/7/1 Anglesey Aluminium. (1969-71) 56.  
1/9/7/2 Palabora, South Africa. (1964-65) 56.  
1/9/7/3 Rio Tinto Brick. (1961-69) 56.  
1/9/7/4 Rio Tinto Collieries, Burragorang Valley, N.S.W.  
(c. 1960s) 56-57.  
1/9/7/5 Rio Tinto Zinc headquarters. (c.1963) 57.  
1/9/7/6 Swansea Aluminium (I.S.F.) (c. late 1960s?) 57.

1/10 CRA. Overviews of Operations, Products, and Logos

- 1/10/1 CRA. Overviews of Operations and Logos (1950-73) 57-8. S/B  
4.  
1/10/2 Comalco. Miscellaneous, logos, products, and administrative  
buildings. (1968-71) 58. S/B 4 and 5.

1/11 Metallurgy and Metals (1957-72) 58.

1/12 Non-CRA Operations

- 1/12/1 Alcoa (1975) 58.  
1/12/2 Alligator River. (1975) 58.  
1/12/3 A.M.A.-Crowdy Bay. (1976-77) 58.  
1/12/4 Captain's Flat. (1974-78) 58.  
1/12/5 E.Z. Risdon. (1963) S/B 3.  
1/12/6 Mount Isa Mines and Mt. Isa Exploration Leases. (1956-79) 59  
and S/B 1.  
1/12/7 Mount Morgan. (1953-70) S/B 1 and 2.  
1/12/8 Myall Lakes. (1974-77) 59.  
1/12/9 New Zealand. (c. 1957) S/B 1, album 44.  
1/12/10 Oberon Logging. (c. 1970s) 59.  
1/12/11 Radium Hill. (1977) 59.  
1/12/12 Ranger Uranium. (1975-78) 59.  
1/12/13 South Australia; especially A.C.I. (1976) 59.  
1/12/14 Townsville. (c. 1950s) Album 44.  
1/12/15 Western Mineral Sands. (1974) 59.  
1/12/16 W.M.C., including Kalgoorlie, Kalgoorlie Lake View Plant,  
and Kambalda Nickel. (1974) 59.  
1/12/17 Woodsreef, N.S.W. (1975) 59.  
1/12/18 Miscellaneous. Eukaby Lead Field. Newcastle. (1957) S/B 1.

1/13      Miscellaneous and unidentified (1851-1978) 60.

69

These slides were given to the University of Melbourne by Ian Hore-Lacy on 6 August, 1986, after the Mary Kathleen collection had been indexed. Thus the slide box slides number 1/5/8/17/840 to 1/5/8/17/895, while the slides received on the 6 August 1986 start from 1/5/8/17/896. However, those from 1/5/8/17/896 are in archive boxes with the main Mary Kathleen collection, while those from 1/5/8/17/840-1/5/8/17/895 are in slide boxes at the end of the whole photograph

Box No.	Archival Number	Description
		collection.
		<u>*Mary Kathleen Uranium Pty. Ltd.: Slides: c. 1981: Colour. (CRA slide set for schools, June 1981)</u>
69	1/5/8/17/896	Over a third of the energy used in industrialised countries is supplied as electricity. This is mostly generated from coal, though in parts of the world such as Japan, U.S.A., and Europe uranium is increasingly used for making electricity. (Two copies).
	1/5/8/17/897	This handful of uranium oxide will make as much electricity as several tonnes of black coal. (Two copies).
	1/5/8/17/898	Aerial of Mary Kathleen open cut and treatment plant. (Two copies).
	1/5/8/17/899	Workers surveying open cut. (Two copies).
	1/5/8/17/900	In the open-cut mine the benches are drilled to take explosives. (Two copies).
	1/5/8/17/901	Drill holes being filled with explosives to break up the rock.
	1/5/8/17/902	Broken rock being loaded into trucks for carting to the crushers and treatment plant. (Two copies).
	1/5/8/17/903	Water being used in the mine pit to keep dust level to a minimum, both in the loading operation and on the haul roads. (Two copies).
	1/5/8/17/904	Load of ore passing through radiation sensitive device to check that it is high enough grade to warrant putting through the treatment plant. (Two copies).
	1/5/8/17/905	Aerial of treatment aerial. (Two copies).
	1/5/8/17/906	Ore emerging from crusher before the larger pieces are passed to radiometric ore sorters. (Two copies).
	1/5/8/17/907	The ore sorters assess the level of radioactivity of each piece of rock individually and accept or reject it for the treatment plant accordingly. This is the control room. (Two copies).
	1/5/8/17/908	After grinding to a fine powder the ore is leached with sulphuric acid to remove uranium and the remaining sandy wastes are allowed to settle. (Two copies).
	1/5/8/17/909	The uranium is purified in a solvent extraction process and precipitated as yellow uranium oxide. (Two copies).
69	1/5/8/17/910	The uranium oxide product is dried to a khaki powder.

Box No.	Archival Number	Description
		(Two copies).
69	1/5/8/17/911	Uranium oxide being packed into a 200 litre drum; strict hygiene provisions apply since uranium oxide is very similar in biological effects to lead oxide. (Two copies).
	1/5/8/17/912	The drums, each weighing more than one third of a tonne, are shipped by road and rail to the coast for export. (Two copies).
	1/5/8/17/913	Tailings and evaporation ponds.
	1/5/8/17/914	This drill operator in the mine pit is wearing a personal air sampler to monitor his exposure to dust and a radiation badge to monitor his exposure to low level gamma radiation from the rocks. (Two copies).
	1/5/8/17/915	Air samples being taken to check for radon gas and its by-products; radon is radio-active and is given off by uranium bearing rocks. (Two copies).
	1/5/8/17/916	Water samples collected around the mine, treatment plant and tailings dam are analysed in the laboratory to check levels of radon and radium. (Two copies).
	1/5/8/17/917	Bird's eye view of Mary Kathleen township. (Two copies).
	1/5/8/17/918	Map of Australia denoting Mary Kathleen township.
	1/5/8/17/919	Two sheets of paper bearing descriptions of 1/5/8/17/896 - 1/5/8/17/918.

Box No.	Archival Number	Description
52	1/8/5/1/1	Introductory slide: "Tracking Community awareness and attitudes toward CRA".
52	1/8/5/1/2	Spontaneous awareness of the companies; CRA, UTAH, ESSO.
52	1/8/5/1/3	Unprompted awareness of CRA and its activities.
52	1/8/5/1/4	Awareness of UTAH.
52	1/8/5/1/5	Awareness of ESSO.
52	1/8/5/1/6	Awareness of CRA Advertising.
52	1/8/5/1/7	Prompted awareness of CRA and its activities.
52	1/8/5/1/8	Unaided awareness of CRA companies.
52	1/8/5/1/9	Ownership of CRA.
52	1/8/5/1/10	Importance of CRA to Australia.
52	1/8/5/1/11	In who's interest does CRA work?
52	1/8/5/1/12	Need for Government control.
52	1/8/5/1/13	My state would be better off without mineral exports (overall result).
52	1/8/5/1/14	My state would be better off without mineral exports (results broken by area).
52	1/8/5/1/15	CRA is good for my state (overall result).
52	1/8/5/1/16	CRA is good for my state (broken by area).
52	1/8/5/1/17	CRA is good for Australia.
52	1/8/5/1/18	CRA is run by Australians.
52	1/8/5/1/19	CRA is wholly owned.
52	1/8/5/1/20	CRA are genuinely interested in conservation.
52	1/8/5/1/21	CRA are actively involved in recycling.
52	1/8/5/1/22	CRA is a company that cares about people.
52	1/8/5/1/23	CRA should not get involved in uranium mining.
52	1/8/5/1/24	CRA are exploiting our wealth.
52	1/8/5/1/25	CRA have been mining in Australia since ?
52	1/8/5/1/26	cra are one of today's pioneers.
52	1/8/5/1/27	CRA makes too much profit.

Box No.	Archival Number	Description
52	1/8/5/1/28	People who invest in CRA shares are very wise.
52	1/8/5/1/29	CRA should advertise on TV.
52	1/8/5/1/30	Attitude segment changes.
52	1/8/5/1/31	Who are more likely to hold negative attitudes to CRA.
52	1/8/5/1/32	Characteristic of anti-CRA segment.
52	1/8/5/1/33	Charateristic of anti-CRA segment.
52	1/8/5/1/34	Ditto (different characteristics).
52	1/8/5/1/35	Ditto.
52	1/8/5/1/36- 1/8/5/1/38	Ditto.
52	1/8/5/1/39	Relationship between perceived ownership and attitudes to CRA.
52	1/8/5/1/40	Relationship of knowledge to attitudes to CRA.
52	1/8/5/1/41	Content of negative attitudes to CRA.
	<b>1/8/5/2</b>	<b><u>*CRA Opinion Survey 1: c. 1973: Slides: Colour</u></b>
53	1/8/5/2/1	Characteristics of a good company.
53	1/8/5/2/2	Government control of pollution.
53	1/8/5/2/3	What form of government control do Australians want?
53	1/8/5/2/4	The public's attitudes towards business have deteriorated sharply since 1968.
53	1/8/5/2/5	In Australia, what are the public attitudes toward business?
53	1/8/5/2/6	Australians are vitally concerned with the exploitation of this country rather than the exploitation of the consumer.
53	1/8/5/2/7	The number of social activists in Australia appears to be small, and their targets are not very clearly defined.
53	1/8/5/2/8	Large companies in Australia are potentially just as vulnerable as companies in the U.S. - especially if they are exploiters of the resources (including money).
53	1/8/5/2/9	A Study of the General Community's Awareness and Attitudes Towards CRA.
53	1/8/5/2/10	Section C.: Community Attitudes to CRA.

Box No.	Archival Number	Description
53	1/8/5/2/11	The objectives of the opinion survey.
53	1/8/5/2/12	Feelings about the need for Government control of the activities of CRA.
53	1/8/5/2/13	Feelings about the profit levels of CRA.
53	1/8/5/2/14	Feelings about the operations of CRA in terms of the conflict of interest between Australian and overseas interests.
53	1/8/5/2/15	Section A.: Community Awareness of CRA.
53	1/8/5/2/16	Awareness of extent of foreign ownership.
53	1/8/5/2/17	Awareness of mining towns associated with CRA subsidiaries.
53	1/8/5/2/18	Generally the most informed about CRA.
53	1/8/5/2/19	Section B: community awareness of CRA subsidiaries.
53	1/8/5/2/20	Awareness of CRA as holding company of "Hamersley", A.M. & S., "Comalco", and "Bougainville".
53	1/8/5/2/21	Conclusions.
	<b>1/8/5/3</b>	<b><u>*CRA Staff Attitude Survey: 1975: Slides: Colour</u></b>

<u>*New Zealand: c. 1950s.: Black and White</u>		
65	1/12/9/1	Buller River (?). (19 x 24 cms.).
65	1/12/9/2	McKee's camp at 1200 feet above Buller River. (8.5 x 13.5 cms.).
65	1/12/9/3	Uranium prospect near McKee's camp. (8.5 x 13.5 cms.).
65	1/12/9/4	View No. 1 of Buller River from McKee's camp. (8.5 x 13.5 cms.).
65	1/12/9/5	View No. 2 of Buller River from McKee's camp. (8.5 x 13.5 cms.).
65	1/12/9/6	Helicopter in Buller Gorge. (19 x 24 cms.).
65	1/12/9/7	Helicopter during construction of McKee's camp. (19 x 24 cms.).
65	1/12/9/8	Buller Gorge from Auster Aircraft. (8.5 x 13.5 cms.).
65	1/12/9/9	McKee's camp at 1200 feet above Buller River. (19 x 24 cms.).
65	1/12/9/10	Hand drilling uranium ore. (19 x 24 cms.).
65	1/12/9/11	Worker being pulled up gorge slope by rope. (19 x 24 cms.).
SLIDE BOX 1		
Box No. 66		
<u>*New Zealand: uranium outcrop at Buller Gorge: 1957: Slides: Colour</u>		
66	1/12/9/12	Uranium ore outcrop at Buller Gorge.
66	1/12/9/13	As above (variant).
66	1/12/9/14- 1/12/9/16	Ditto.
66	1/12/9/17	Buller River from lookout camp.
66	1/12/9/18- 1/12/9/19	As above (variants).
66	1/12/9/20	Buller Gorge waterfall.
66	1/12/9/21	Buller Gorge prospecting camp.
66	1/12/9/22	As above (variant).
66	1/12/9/23	Frank Joubin, Inspector Jones, Surveyor Hope and student at Buller Gorge prospecting camp.
66	1/12/9/24	McKee's prospecting camp.

Box No.	Archival Number	Description
66	1/12/9/25	Buller River from prospecting camp.
66	1/12/9/26	Gangers trolley at Buller Gorge.
66	1/12/9/27	Resources survey of McKee Nelson.
66	1/12/9/28	Pyrite area near Thames.
66	1/12/9/29	As above (variant).
	1/12/10	<b><u>*OBERON LOGGING, NEW SOUTH WALES</u></b>
		<b><u>Oberon Logging: c. 1970s (?).: Colour: 8 x 12 cms.</u></b> <b><u>(Compiled by D. Fairweather?).</u></b>
59	1/12/10/1	The town of Oberon with the Fish River Dam in background, and the wood-using industries in the right hand corner.
59	1/12/10/2	The town of Oberon showing wood-using industries in foreground.
59	1/12/10/3	The Jenolan State Forest Pinus Radiata plantations 15 miles east of Oberon.
59	1/12/10/4	Pastures at Oberon with the wood-using industries in the background.
59	1/12/10/5	The 'timberjack' log skidder imported from Canada for work in the pine forests.
59	1/12/10/6	The 'timberjack' sings up to 4 tons of logs at a time.
59	1/12/10/7	A nine-year old stand of Pinus Radiata is given a 'low-pruning' to produce clear wood for the final crop.
59	1/12/10/8	A 36 year old stand of Pinus Radiata at Jenolan State Forest has already been 'thinned' three times; this is the final crop to be harvested in 15 years time when the diameter will be 30% greater.
59	1/12/10/9	Third thinning in progress on the stand shown in 1/12/10/8; this forest was not pruned in its early years.
59	1/12/10/10	All felling and cross-cutting is done with the one-man petrol driven chain saw; the youth stands by to trim the limbs off with an axe and to mark the lengths to be cut with his measuring stick.
59	1/12/10/11	After the logs are skidded into heaps with 'timberjack' they are loaded by 'blitz' cranes onto jinker trucks for road transport to the mill.
59	1/12/10/12	Aerial of hardwood forest.
59	1/12/10/13	Clearing old hardwood forest for pine planting.

Box No.	Archival Number	Description
