	<b>45</b>	<b>Council of Trustee Matters</b> (95/95, 2002.0032) <i>Series note:</i> Artificial series used to describe the many packets and bundles created by ASG, while President of the Council of Trustees, and found throughout the collection as loose papers. They contain mainly correspondence, notes and papers, but include some Council and Sub-Committee agendas and minutes, and printed material on NGV matters (see also <b>Trustees Minutes</b> series for meeting papers). These loose papers are voluminous, and some appear to have been removed from an ASG file. To aid researchers, the papers have been described and refiled roughly chronologically here by year, although the original order has been retained where evident and logical. Where they appear to deal with a major topic, or a subject of particular interest, a note has been appended in square brackets
