Scope and Content of Collection/Series

Previous Control Number: UM263. The attachments and documents presented to the Building Committee at meetings between September 1969 and February 1974 have been separated into individual items and arranged by subject matter. Each document has the reference number allotted by the committee's secretary, indicating its position within the full set of minutes of a particular meeting, and the date of the minutes to which it was originally attached. Subject matter includes finance reports, background to building projects, building programme, completion schedules, architect's reports etc. It is assumed that Max Ferguson accumulated these records due to the financial information they held, but naturally they also cover building programme, works and maintenance matters.
