HISTORICAL NOTE:	In 1884, competing stock exchanges amalgamated to form the Stock Exchange of Melbourne. Experience of the depression of the 1890s led the Exchange to introduce the practice of underwriting. With the pre-eminence of Melbourne in Australian financial affairs, the exchange occupied an important position in the development of a regulated Australian share market. In 1987 the independent stock exchanges in the state capitals amalgamated to form the Australian Stock Exchange.
DESCRIPTION:	Alphabetically arranged company files containing prospectuses, annual reports, memoranda and articles of association, notices to Stock Exchange for each company.
