<b>HISTORICAL NOTE</b>	<p>The Communist Party of Australia formed in 1920. During the 1930s depression its membership increased as people sought alternatives to industrial capitalism. It reached the peak of its influence post WWII, when its membership was at its largest, and a number of its members held key trade union positions. Several prominent academics have also featured amongst its members. In 1949 the Menzies government conducted a Royal Commission into the CPA, and in 1950 a national referendum to outlaw the CPA was defeated. In 1963 it split over the Sino-Soviet issue, and a splinter CPA (Marxist-Leninist) was formed. In 1970 and 1984 there were other ideological splits, all of which worked to weaken the Party. The CPA was officially disbanded in 1989.</p> <p>For more historical information, refer to Davidson, Alastair, <i>The Communist Party of Australia: A Short History</i>, Hoover Institution Press, Stanford, California, 1969.</p>
