The women in Bengal do not permit their women to eat the flesh of the tiger, lest they become too strong. The Wamb finally of East Africa keep their cats making fire a secret from their women lest women become their rulers.

Moesius pointed out that the female brains weigh less than the male one, but the point need not be made in so crude a way. On the contrary, it can be stressed that woman is not at all inferior, only different, but that unfortunately she has fewer or none of these human or cultural qualities that man holds in such high esteem. She is said to be deeply rooted in the personal and emotional spheres, which is wonderful, but unfortunately this makes her incapable of exercising justice and necessity, therefore disqualified for positions in law and government distant from the spiritual.
community. She is said to be at home only in the realm of
bos. Spiritual matters are alien to her unconscious being, and
she is at odds with cultural trends. She is therefore, as Asians
frankly state, a secondary being. Woman may be
individuals and useful, but is, alas, incapable of producing
and independent intellect. She is indeed, prevented from real
accomplishment by a deplorable bloody-minded
denialism and child. And so the man
slept, namely, his wife as the true feminine prayer,
that he was not born a woman.
