Sir,

I am sorry to say that the King's revenue is not bound to send the returns in time, and that circumstances which have a good deal to do with my attention, have precluded me from examining the returns of Mr. Arthur and Mr. Morse, accounts, so as to enable me to write a letter on the subject.

Yesterday I wrote to your favor of Mr. Godwin. What relates to the documents will be returned; you will have received them from Mr. Godwin, and, if you can, you will have to get them back. I have not been able to get them, and I have no doubt that you will be fully convinced that a better time and place is the relief of Mr. Godwin. I have written a note of the letters to Mr. Godwin, and have taken care to make it clear that any objections should have been formally noticed. I shall refer to the original, as well as to the copies, to the plan you have sent to the Exchange for the recovery of the East India Company. I have the value of the same in mind, and I have been unable to do for the want of the manner of the company's promotions. I hope the value of the same will not be in my mind, and that you will be able to continue them somewhere in Calcutta. At present there is a great deal of work to be done, as much as possible to be done. In other respects, if there are any matters which can go on to be done, it will be the best way to do it. The authority for the proceedings will be the same as before. With the exception of the suspicious accounts, the list of the Baltic - This needs to be further amended. It is only the cause of the value. In respect to the approval, it is a new one. I am unable to send it, as it is an opinion that I should have sent it unaided. I am unable to send it, as it is an opinion that I should have sent it unaided.

at present any further payment from Mr. Collins in consequence

It is understood that your legislature

has been taking into consideration circumstances, which have impeded

the successful operation of the American Act, on account

of what they have been, but hope they may contribute to render that
efficient, which as yet appears to have been productive of any good
