My dear Peter,

I have not found of April 11 and 14th for which I am obliged. I was sorry to receive by the letter that Miss Mayor had occasioned so much unpleasantness and I sincerely hope and trust before this that Mr. D. is arrived at that every thing is arranged most amicably. I have still got your hunters and I dont know when I shall be able to get out of her. I have allowed her for 20£ but cannot get it. She now looks better than ever I saw her. The lives with the court a very idle life. I have not rode her for nearly 4 months past for fear of being surcharged. I have had an accident with my mare and broke her knee and have in consequence been trying to sell her for these two months last.
have not succeeded—we have Isaac & John with us they are nearly as fond of getting into mischief as they were this time twelve months when you had the command of them—I have had old harley again hearing he often talked about Mr. Whites and wished he was here, the floods have not been at all trouble some to have this summer, the weather has been so cold—May how do you get on with vaccinating the negroes, I believe I must return again to the estate & master for if possible the farming business is as bad again as when you left England—let me know how the climate agrees with your constitution and tell me if you think it will agree with mine as I do not think it unlikely but that after all I may pay Surinam a visit, I hope you have had no disturbance amongst your slaves what a shocking thing it has been at Barbadoes, I understand the damage done to the plantations there are incalculable—we have not been or heard for your brother since he arrived in England I'm told he is in Town with Mr. Williams, none of the young ladies in the neighborhood have changed their names since you left us, you have still therefore plenty of chances—your sister and brother are there now and you will also often new often talks about the better she knows your picture perfectly—your friends are often enquiring after you & beg to be remembered when writing—Be good enough to remember me affectionately to Major and ask him to Mr. Dayler and tell me to remain Yours very sincerely & affectionately

P.S. Rayner
