This precious freedom - the most precious thing we have - with freedom we are masters of our own individual destinies. We can work for ourselves, for our families and through them for our country. We can carve our own lives out of the world employing all our inborn initiative and courage.

Freedom has developed the great without freedom the best material things this land can offer would be worth so much dust with worn hearts and all human emotion destroyed.

Freedom has developed the great Nation of the world. Lead Britain and her Commonwealth of Nations. Lead Britain the mother of all Democracies and the birthplace of political freedom as we know it. The U.S.A., the freest country in the world where
where the greatest possible emphasis is placed upon the individual and his inalienable rights. Our own Australia, once a child of the British Empire, now a partner in a great commonwealth—one of the great free countries of the World. This is the chief thing that makes Australia an attractive place to migrate from Europe, many of whom have known the cruel yoke of political tyranny. Freedom, as we know it, expect it and often take for granted, has been the rare possession of people in a few chosen countries for less than 200 years. Before then, even under the so-called enlightened monarchies, democracy was a meaningless word for the great majority of the people. Even today true freedom in the political sense is known to less than half the people on the world surface. To those that have it, from Australia...
